

THIS SPRING TONIC GIVES NEW STRENGTH

Lay the Foundation for Good Health Now by Building Up
Your Blood and Strengthening Your Nerves

Why do we feel out of sorts just when the hardships of winter are over and the out-door world begins to be attractive? We are feverish, listless and weak, while nature all about is astir with fresh life.

All the strength of the body comes from the blood, which must be kept pure and rich in red corpuscles to maintain its vigor. Some of the impurities that tend to accumulate in the blood are burned out by contact with fresh air in the lungs, others are carried through the kidneys and the pores of the skin. In winter the air of the close rooms in which we spend so much of the time does not furnish enough oxygen to the lungs to burn out the impurities in the blood. Everyone has experienced the uncomfortable feelings that follow the breathing of bad air. The worst effects of the indoor life are those that are stored up and do not appear at once.

Stomach Functions Feebly.
In the cold season we do not exercise as much and the skin and kidneys do not throw off the waste matter freely. The whole system gets clogged, just as a machine does when it is not cleaned frequently. The stomach does its work feebly and gets less nourishment from the food. So there is weakness everywhere, weak organs, weak muscles and weak nerves.

When indigestion, headaches, languor, dizziness, nervousness and general weakness are experienced, relief can be found by treatment with Dr. Williams' Pink Pills, a non-alcoholic tonic that has been successfully used by many New England families for generations.

Regains Weight and Strength.

Mrs. George D. Wolcott of No. 63 Pleasant street, Chittenden, N. H., was in a badly run-down condition and it wasn't until she discovered this tonic that she was able to rehabilitate her blood and build up the wasted tissue. She says:

"I was very weak and run-down and seemed to be tired all the time and without ambition for my work. I couldn't sleep at night and was so nervous that the slightest unusual noise upset me. I felt as tired in the morning as when I went to bed, and I couldn't enjoy my food, for it always caused distress. My eyes bothered me, too, and I couldn't read. My heart palpitated and I suffered from shortness of breath when I exerted myself."

"I saw an announcement of Dr. Williams' Pink Pills in a newspaper and procured a box. After a week's treatment I felt greatly improved and continued taking them until I had gained only regained my strength but had taken on weight, and I now feel better than I have for years. I am no longer weak or tired, the heart palpitations have stopped, and I do my work with ease. I attribute my recovery to Dr. Williams' Pink Pills and gladly recommend them to others."

Influenza Drained Her Strength.

The usual spring debility is complicated this spring in many cases by the weakness which was caused by the recent influenza epidemic. Even mild cases of the grip left the victim so run-down that it was almost impossible, during the winter, to regain the lost strength. An example of the effectiveness of Dr. Williams' Pink Pills in benefiting aff-

ected of influenza is the case of Mrs. P. R. McDougall of No. 5 Holt street, North Billerica, Mass.

"I had a severe attack of influenza," she says, "and it left me very weak. I had pains in my side, my appetite was poor and I would often go to the table and not eat anything at all. I suffered from indigestion and sleeplessness. I tried different medicines but they didn't seem to build me up."

"One day I saw Dr. Williams' Pink Pills recommended in a newspaper and I had not taken them long before I saw that I was being benefited. Soon I had a better color and could enjoy a hearty meal. I have great faith in Dr. Williams' Pink Pills, as they have helped me in every way. As a part of the treatment I took Pinklets to correct constipation which troubled me, and I think they are a fine laxative."

Build Up the Blood.

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do one thing, and they do it well. They are for the reason an invaluable remedy in diseases arising from bad or deficient blood, such as rheumatism, neuralgia, after-effects of the grip and fever. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, postpaid, on receipt of price, 60 cents per box, by Dr. Williams' Medicine Co., Schenectady, N. Y. The booklet, "Building Up the Blood," will be mailed free on request.—Adv.

Red Blood for Pale People!

A big supply of red blood corpuscles is what helps to make any man or woman have a healthy, pink complexion and cherty red lips. Resort to paint and powder are totally unnecessary and besides that are harmful. Three-grain hypo-nuclease tablets, if used regularly for several months, seem to create a greatly added number of millions to the red and white corpuscles of the blood, and not only improve the color, but add increased flesh to the thin and frail body. These tablets promote assimilation, absorption and digestion, and this splendid aid to nature's forces transforms the complexion and figure. They are prescribed by physicians, but being of a perfectly harmless character, self-administration is being followed by many, who obtain them direct from any well-stocked apothecary shop.
